

Road Rehabilitation tentative work for the week of May 5th:

Phase 1 of the 2025 Road Rehabilitation Project will continue with saw cutting curb and sidewalks for removal. Removals and replacements will begin on Gregg's Parkway, Sawgrass Street and Plainfield Court, weather permitting.

Motorists may experience temporary delays and possible re-routing during construction. Please plan ahead, accordingly, when traveling through the construction zone.

Please notify us if you have an irrigation system or invisible pet fences and if you have any special needs, concerns and questions.

Locations where removals are planned and may occur at your driveway, the contractor will place a notice at your front door or garage door the day before the removal is to occur. Please have your vehicles moved to the street by 7:00 am the day of removal. Weather may delay the work for that day, but will occur the following day.

Residents have been given permission to park on the street overnight if you are unable to access your driveway; we have notified the Police Department not to enforce the overnight parking restrictions for **Phase 1 only**.

Residents and guest are asked to not park in the locations where barricades have been placed, not blocking driveways, near hydrants and at corners where prohibited by law.

Please refrain from driving on the new concrete until the barricades have been removed (approximately 3 days) by the contractor.

As a reminder, trash and recycle bins are **not** to be placed in the street and should be placed at the end of your driveway apron.

The Village's website (www.vernonhills.org) and Village social media outlets will be updated on Friday's with tentative construction information for the upcoming week.

If you have any questions or concerns please contact the Public Works Engineering Division by entering an online Service Request at www.vernonhills.org.

We appreciate your patience and cooperation during this construction project.

Respectfully,

Chris Venatta P.E.

Director of Public Works/Village Engineer
