

Road Rehabilitation tentative work for the week of June 30th:

The contractor has completed the backfilling of all areas that were disturbed by the concrete work. Due to the excessive heat and dry conditions, the seeding and blanketing of these areas has been suspended for short period of time. The contractor should hopefully return to complete this work in a few weeks.

Punchlist work should begin shortly..

The Village's website (www.vernonhills.org.) and Village social media outlets will be updated on Friday's with tentative construction information for the upcoming week.

If you have any questions or concerns please contact the Public Works Engineering Division by entering an online Service Request at www.vernonhills.org.

We appreciate your patience and cooperation during this construction project.

Respectfully,

Chris Venatta P.E., Director of Public Works/Village Engineer
