

## **VERNON HILLS SENIOR RESOURCE FAIR – 65+**

**Purpose:** This informational presentation for seniors, soon-to-be seniors and family members of seniors is for relaying information, tools and guidance regarding Medicare, Medicare replacement plans (can save money over traditional Medicare), the benefits/negatives of each type of Medicare Advantage plan, and the types of homebound medical services that are available for Medicare patients.

**Benefit to Attending:** Education is key in making the appropriate choices regarding your health and healthcare coverage when aging. Certain Medicare plans may save you money over traditional Medicare, but might not allow the flexibility needed depending on medical history/current issues. There's positives and negatives that individuals need to know. As for the healthcare portion, it is important that people are aware of the types of preventative healthcare that is available to them at home, with the goal of reducing hospitalizations and "catching" potential issues before they become larger problems that may require more invasive/aggressive treatments.

**Length of Informational Presentation -** This will be a 30 minute discussion on the items noted along with time for Questions and Answers. This is not a sales offer or promoting a product. *This is for the sole purpose of passing information and giving the Vernon Hills Seniors guidance to Medicare and other aspects of Medicare.*

### **Presenting Guests:**

- Steve Rainsford of Meridian Health Care/Volunteer Senior Outreach Coordinator for the Village of Vernon Hills
- Jonathan Pfisterer of Pfisterer Retirement & Insurance
