

WATERMAIN REPLACEMENT TO OCCUR IN THE AREA: OAKWOOD ROAD WATER MAIN REPLACEMENT

As a part of Lake County's Capital Improvement Program, Lake County Public Works (LCPW) will be replacing 600 feet of water main along Oakwood Road between Westmoreland Drive and Cherry Valley Road. Water service will be disrupted for a short period while connections to the new water main are made. Ample notice will be given to affected customers prior to any water shutoffs.

Residents may observe construction activities, truck traffic, periodic lane closures, and equipment noise during construction. Any disturbed areas will be repaired in a timely manner. Construction is expected to start in May 2022 and be completed in approximately six months, weather dependent.

LCPW is proactive in maintaining its infrastructure and one method to ensure continued reliable water service is by replacing aging water main pipes. For more information on the project, visit our website at:
